LEVIES

From Fiscal Year 1995/96 through 2015/16 (Tax Year 1995 through 2015)

The tax levies for the general fund increased slightly to achieve the same levy amount as the prior year plus the statutorily 2% limit and new construction. The combined library operations and debt service levies remained the same. The flood districts levy increased slightly due to a slight increase in assessed values. The Library Debt Service levy is based on the bond repayment schedule, and should not change substantially from year to year except for changes resulting from assessed values.
